Choosing an architect isn't easy.

You need the right architect who has the specific skill for your home, and you need the right 'fit' between you and your architect.

This may or may not be me!

But in our experience, the best way of finding out whether we are the right 'fit' is to fully understand what you are looking for; this is achieved through out initial design consultation session.

If for some reason we then discover that we are not an ideal fit, then you are free to take the report to another architect for them to continue the process.

## INITIAL CONSULTATION BOOKING

By commissioning this initial design session, you'll get a licensed architect's opinion on the feasibility and possibilities of your project, and a set of next steps.

A doctor wouldn't operate without a proper diagnosis; this initial consultation works the same way. We help you create a strategy designed to understand your requirements, then give you findings and recommendations to move forward.

### Option A: Design Session

\$700 (remodel) or \$1,000 (new single family home)

1. Site visit to meet with you, and discuss:
  - A. Your needs, desires, and potential design solutions.
  - B. 'Look and feel' possibilities.
2. Sketch and/or document suggestions, as appropriate.
3. Provide a report with:
  - A. Summary of the discussion and design suggestions.
  - B. Flow chart diagram of project steps.
4. Schedule of services & fee proposal on next stages of project.

(This package is best for interior remodels, or simple sites)

### Option B: Design Session + Research

\$1,100 (remodel) or \$1,600 (new single family home)

All items in Option 1 above, and:

1. Preliminary Zoning/Planning research before our meeting.
2. Followup Planning Department research after we meet.
3. Summary of Planning Department requirements and likely Zoning issues.

(This package is for additions or more complex urban sites.)
